Shown with optional chrome wheels and chrome hub/lug nut cap

### *The fun can't start until your boat is in the water*

You need a trailer you can depend on for the long haul. Rely on Yacht Club trailers – built to deliver your fun year after year! From our welded steel tubular full-radius frame to our high-quality powder-paint finish (or optional hot-dipped galvanizing), this is a trailer engineered for dependability and reliable service.

So whether you find your fun on a fishing boat, a 15,000-pound cruiser, or something in between, there's a durable and stylish Yacht Club aquatic trailer that's beautifully designed to get you where the water is. Plus, we also have a complete line of utility trailers for motorcycles, golf carts and snowmobiles.

When your fun rides on a Yacht Club trailer, it's supported by a tradition of excellence that is unparalleled. For over a quarter of a century, Yacht Club has followed the road to fun with quality, durability, style and satisfaction. Don't let your fun ride on anything less.

## FEATURES:

1. Heavy-duty structural welded frame.
2. Low-profile, underslung suspension protects your cargo, and tows smoothly and economically.
3. Robotically tooled heavy-duty axles ensure a perfect fit for your trailer.
4. Contoured design fits cargo snugly.
5. Sturdy winch stand helps secure your cargo.
6. Dual safety cables.
7. Custom-molded composite fenders.
8. Sturdy fender steps.
9. Easy-to-change bolt-on coupler.
10. Spring-loaded double lip seals help protect bearings.
11. Heavy-duty protective taillight bracket also serves as a step and tie-down bracket.
12. Durable high-gloss finish using polyester powder paint, available in a wide variety of colors. Hot-dipped galvanized finish also available.
13. Extensive pre-treating ensures that all metal parts, including tubing, have the same high-quality powder-paint finish.
14. Brakes available on most models, std. 3000#+ (check your local brake laws for brake applications and regulations).
15. Swivel jack (standard on all tandem and triple axle trailers).
16. Adjustable running gear for proper hitch weight distribution (standard on most models).
17. Greasable spindles.
18. Bow rollers with end caps (standard on most models).
19. Waterproof tail lights (standard on most models).
20. Free-turning, self-centering roller assemblies (on roller models) evenly disperse cargo weight for optimal protection.
21. Bow safety chain for added security during launching and towing (standard on all roller trailers).
22. NMMA certified.

Swing Tongue

Verticle Side Load Guides

Adjustable "V" Keel Pad

### OPTIONAL Trailer Colors

- Medium Red
- Standard White
- Olive Drab
- Medium Blue
- Evergreen
- Pearl White

# MULTI-AXLE BOAT TRAILERS

**Your boat will feel right at home**

Boats weren't built for hauling, they were built for fun on the water. So the design of a trailer needs to deliver the same kind of gentle, cushioning support that water provides.

A sturdy Yacht Club trailer is designed to do just that! With durable carpeted bunks and smooth-towing assembly, a Yacht Club trailer gently holds your precious cargo for a ride over the open road as smooth as a calm lake.

With a Yacht Club trailer, you'll know your boat is cradled in an environment almost as natural as the water it was built to ride. And that ensures the fun can start as soon as you get to your destination.
